

DATASHEET

FortiGate®-200B/200B-POE

Wire-Speed Protection for Wired & Wireless Networks

Unmatched Performance and Protection

The FortiGate-200B and FortiGate-200B-POE platforms deliver wire-speed performance and integrated threat management for wired or wireless networks. Their purpose-built processors provide up to 5 Gbps firewall throughput, enabling you to protect your applications and network without affecting availability or performance.

The FortiGate-200B series provides comprehensive threat protection with Fortinet's unmatched range of enterprise-grade security technologies. It delivers firewall, VPN (IPSec and SSL), intrusion prevention, antivirus/antispysware, antispam, and web filtering technologies. The platforms also provides application control, data loss prevention, dynamic routing for IPv4 and IPv6, end point NAC, and SSL-encrypted traffic inspection. With no per-user pricing, you can deploy the specific technologies you need for your unique environment.

Wireless LAN Support

The FortiGate-200B series allows you to manage all of your security policies for both your wired and wireless networks from a single platform. Both models can act as wireless controllers for FortiAP wireless access points (WAPs). The FortiGate-200B-POE also delivers Power Over Ethernet (POE) for up to 8 WAPs. Consolidating all network traffic through the FortiGate-200B series enables you to increase your network visibility and improve policy compliance while eliminating the need to manage a separate WLAN network.

Fortinet Storage Module

The FortiGate-200B series also includes a Fortinet Storage Module (FSM) bay. The optional FSM provides disk-based storage for you to archive content locally for policy compliance. Alternately, you can use the FSM to enable WAN optimization, which improves network performance while reducing your costs.

Switch-Like Performance

FortiASIC purpose-built processors ensure that your security countermeasures will not become a network bottleneck. The FortiASIC CP6 processor delivers acceleration for encryption/decryption features, including IPSec VPN and SSL inspection. The FortiASIC NP2 processor delivers firewall and VPN throughput at switching speeds by performing high-speed processing of network flows.

The FortiGate Product Family: Integrated Multi-Threat Protection

The FortiGate product family provides cost-effective, comprehensive protection against network, content, and application-level threats. It defends your environment from complex, sophisticated attacks without degrading network availability and affecting application performance.

FortiGate platforms combine the purpose-built FortiOS™ security operating system with custom FortiASIC processors and other hardware to provide a comprehensive and high-performance array of security and networking functions.

The FortiGate product family delivers the highest level of network, content, and application security for enterprises of all sizes, while reducing total cost of ownership. With Fortinet, you deploy the network security you need to protect your intellectual property, preserve the privacy of critical customer information, and maintain regulatory compliance.

Features

Benefits

Enterprise-grade protection for smaller networks

Enables small and medium businesses to deploy FortiGate's unmatched protection and performance at an affordable price

Wireless Controller for Wireless Access Points

Eliminates potential security blind spots by integrating policy enforcement for wired and wireless networks

Centralized management

FortiManager and FortiAnalyzer centralized management and reporting appliances simplify the deployment, monitoring, and maintenance of your security infrastructure

Industry Certification

Technical Specifications	FG-200B	FG-200B-POE
Hardware Specifications		
10/100/1000 FortiASIC NP2-Accelerated Interfaces (Copper, RJ-45)		4
10/100/1000 Interfaces (Copper, RJ-45)		4
10/100 Switch Interfaces (Copper, RJ-45)	8	0
10/100 Switch Interfaces - POE (Copper, RJ-45)	0	8
Console (Copper, RJ-45)		1
USB Interfaces		3
FSM Storage Bay		1
System Performance		
Firewall Throughput (512/1518 byte UDP packets)		5 Gbps
Firewall Throughput (64 byte UDP packets)		4 Gbps
IPSec VPN Throughput		2.5 Gbps
IPS Throughput		500 Mbps
Antivirus Throughput (Proxy based)		95 Mbps
Antivirus Throughput (Flow based)		200 Mbps
Gateway-to-Gateway IPSec VPN Tunnels		2,000
Client-to-Gateway IPSec VPN Tunnels		2,000
Concurrent Sessions		500,000
New Sessions/Sec		15,000
Concurrent SSL VPN Users (Recommended Max)		200
SSL-VPN Throughput		110 Mbps
Firewall Policies (Max)		6,000
Virtual Domains (Max / Default)		10 / 10
Unlimited User Licenses		Yes
Wireless Access Points Supported		32

Technical Specifications (Continued)	FG-200B	FG-200B-POE
Dimensions		
Height x Width x Length (in)	1.75 x 17 x 11.6 in	
Height x Width x Length (cm)	4.45 x 43.2 x 29.35 cm	
Weight	9 lbs 13 oz (4.45 kg)	
Rack Mountable	Yes	
Environment		
Power Required	100-240 VAC, 60-50 Hz 2 - 1 Amp	5 - 4 Amp
External Redundant Power Supply (FG-200B only)	Requires External Option (FG-310B-RPS)	
Power Consumption (AVG)	58W	188W Based on 8 POE devices.
Heat Dissipation	198 BTU	641 BTU
Operating Temperature	32 – 104 deg F (0 – 40 deg C)	
Storage Temperature	-31 to 158 deg F (-35 to 70 deg C)	
Humidity	20 to 90% non-condensing	
Compliance		
	FCC Class A Part 15, UL/CUL, C Tick, VCCI	
Certifications		
	ICSA Labs: Firewall, Antivirus, IPSec VPN, SSL VPN, IPS	
Antivirus performance is measured based on HTTP traffic with 32Kbyte file attachments and IPS performance is measured based on UDP traffic with 512byte packet size. Actual performance may vary depending on network traffic and environments.		

FortiGate-200B FortiGate-200B-POE

Protection for Wired and Wireless Networks

Both the FortiGate-200B and FortiGate-200B-POE platforms allow you to manage all of your security policies for both your wired and wireless networks. Both models can act as wireless controllers for FortiAP WAPs. The FortiGate-200B-POE has the added benefit of delivering POE for up to 8 WAPs.

You can also reduce your costs and increase your policy compliance by consolidating all network traffic through the FortiGate-200B series. Consolidation eliminates the need to manage a separate WLAN and increases your overall network visibility.

FortiGuard® Security Subscription Services deliver dynamic, automated updates for Fortinet products. The Fortinet Global Security Research Team creates these updates to ensure up-to-date protection against sophisticated threats. Subscriptions include antivirus, intrusion prevention, web filtering, antispam, vulnerability and compliance management, application control, and database security services.

FortiCare™ Support Services provide global support for all Fortinet products and services. FortiCare support enables your Fortinet products to perform optimally. Support plans start with 8x5 Enhanced Support with “return and replace” hardware replacement or 24x7 Comprehensive Support with advanced replacement. Options include Premium Support, Premium RMA, and Professional Services. All hardware products include a 1-year limited hardware warranty and 90-day limited software warranty.
