FortiGate/FortiWiFi®-60C Series
Integrated Threat Management for Frontline Locations

Enterprise-Class Protection for Remote Offices, Retail, and Customer Premise Equipment
FortiGate/FortiWiFi-60C series of consolidated security appliances deliver comprehensive enterprise-class protection for smaller locations, branch offices, customer premise equipment (CPE) and retail networks. An integrated set of essential security technologies deployed in a single device protects all of your applications and data. Simple per-device pricing, an integrated management console, and remote management capabilities significantly reduce your procurement, deployment and administration costs.

Comprehensive Protection and Optional Wireless Capability
FortiGate consolidated security appliances deliver an unmatched range of security technologies. They integrate essential firewall, IPSec and SSL VPN, application control, intrusion prevention, antivirus, and web filtering protection into a single device at a single price, all managed from a “single-pane-of-glass” console. They also include other security technologies, such as data loss prevention (DLP), encrypted SSL inspection, endpoint NAC, WAN optimization, and vulnerability management.

FortiWiFi-60C/CM/CX appliances deliver the protection and performance you need with the convenience of wireless networking. Dual-band capabilities and support for 802.11a/b/g/n standards ensure compatibility with your existing network infrastructure. Multiple SSID support allows you to create multiple wireless access networks, enabling unencrypted guest or contractor access to the Internet while limiting access to corporate networks.

Compact yet robust security appliances
- Ideal for smaller locations, branch offices, customer premise equipment (CPE) and retail networks
- Runs on FortiOS 5 - the most powerful security operating system in the world delivers more security to fight advanced threats, more control to secure mobile devices, and more intelligence to build secure policies
- Purpose-built FS1 SoC processor delivers Gigabit firewall throughput
- FortiExplorer setup utility provides easy setup and configuration
- Backed by Fortinet’s global FortiCare technical support and FortiGuard threat research teams for around-the-clock protection and support

Key Features & Benefits
Unified Security Architecture
- Multi-threat protection from a single device increases security and lowers costs

Simple Licensing
- Hassle-free unlimited user licensing and comprehensive feature-set increases ease of deployment and maintenance

Multi-Port Interfaces
- Multiple network interfaces and optional wireless/ADSL connectivity enables flexible deployment and improves protection with multiple security zones
The Fortinet FS1 System-on-a-Chip

The FortiGate/FortiWiFi-60C series represent a new generation of desktop network security appliances from Fortinet, and include the first Fortinet System-on-a-chip (SoC), the FS1. Integrating FortiASIC acceleration logic together with a RISC-based main processor and other system components, the FS1 SoC simplifies appliance design and enables breakthrough performance for smaller networks.

The FS1 and resulting FortiGate/FortiWiFi-60C series appliances allow large distributed enterprises to provide integrated, multi-threat protection across all points on their network without sacrificing performance.
HIGHLIGHTS

Complete and Real-time Security
Fortinet designed FortiOS to deliver the advanced protection and performance that standalone products simply cannot match. The integrated technologies work together as a system to provide better visibility and mitigation of the latest network and application threats, stopping attacks before damage can occur. FortiGuard Subscription Services provide automated, real-time, up-to-date protection against security threats.

Industry Validation
The FortiGate family of physical and virtual appliances has earned more certifications than any other vendor by consistently meeting rigorous third-party standards. Our industry-leading technology provides you with air-tight security.

Unique Visibility and Control
FortiOS gives you greater visibility and more consistent, granular control over users, devices, applications and data. Dashboard widgets allow administrators to quickly view and understand real-time network activities and threat situations while reputation-based analysis quickly identifies potentially compromised systems.

Ease of Use
FortiOS lowers costs and reduces IT staff workloads. Physical or virtual FortiGate appliances give you the flexibility to match your security to your environment while enforcing a uniform security policy. Single pane of glass management and centralized analysis ensure consistent policy creation and enforcement while minimizing deployment and configuration challenges.

PCI Compliance Out-of-the-Box
Fortinet simplifies your network security assessment-ready PCI compliance without sacrificing performance. Retail, health care, and other affected industries can ease the process of PCI DSS assessment-readiness with an ISO security framework and unified threat management approach.

World-Class Technical Support and Documentation
Fortinet FortiCare support offerings provide comprehensive global support for all Fortinet products and services. You can rest assured your Fortinet security products are performing optimally and protecting your users, applications, and data around the clock.

FortiOS Dashboard - Single Pane of Glass Management

FortiOS - The World’s Most Advanced Security Operating System

- Client reputation measurements to identify compromised systems in real time
- On-device behavior-based heuristic engine for protection against advanced threats
- Cloud-based threat protection with operating system sandbox
- Mobile device identification that lets you apply specific access policies to smartphones and tablets
- Next Generation Firewall functions, including Application Control and IPS
- Data Loss Prevention to protect critical information
- Web filtering to prevent access to malicious or inappropriate web sites
- Web-based GUI, ‘single pane of glass’ management console and on-board reporting for unmatched visibility and control

For complete, up-to-date and detailed feature set, please refer to the Administration Handbook and FortiOS Datasheet

### System Performance

- **Firewall Throughput (1518 / 512 / 64 byte UDP packets)**: 1 / 1 / 1 Gbps
- **Firewall Latency (64 byte UDP packets)**: 4 μs
- **Firewall Throughput (Packets Per Second)**: 1.5 Mpps
- **Concurrent Sessions (TCP)**: 5,000
- **Firewall Policies**: 5,000
- **IPsec VPN Throughput (512 byte packets)**: 70 Mbps
- **Gateway-to-Gateway IPSec-VPN Tunnels**: 50
- **Client-to-Gateway IPSec VPN Tunnels**: -
- **SSL-VPN Throughput (Recommended Max)**: 1.35 Mpps
- **IPS Throughput (Proxy Based / Flow Based)**: 20 / 40 Mbps
- **Antivirus Throughput (Proxy Based / Flow Based)**: 20 / 40 Mbps
- **Max Number of FortiAPs**: 5
- **Max Number of FortiTokens**: 100
- **High Availability Configurations**: Active / Active, Active / Passive, Clustering
- **Unlimited User Licenses**: Yes
- **Unlimited User Licenses**: Yes

### Dimensions

- **Height x Width x Length (in)**: 1.50 x 8.50 x 5.83 in (38 x 216 x 148 mm), 1.50 x 8.50 x 15 mm (38 x 216 x 15 mm), 1.75 x 17.32 x 12.28 in (44 x 440 x 312 mm), 1.50 x 8.50 x 6.18 in (38 x 216 x 15 mm), 1.75 x 13.56 x 8.27 in (44 x 344 x 210 mm)

### Environment

- **Power Required**: 100-240 VAC, 50-60 Hz
- **PoE Power Budget**: 165 W
- **Heat Dissipation**: 49 BTU/hr, 49 BTU/hr, 1058 BTU/hr, 49 BTU/hr, 49 BTU/hr, 49 BTU/hr
- **Operating Temperature**: 32 - 104 °F (0 - 40 °C)
- **Storage Temperature**: 32 - 104 °F (0 - 40 °C)
- **Humidity**: 20 to 90% non-condensing

### Compliance

- **FCC Part 15 Class B, C-Tick, VCO, CE, UL/cUL, CB**

### Certifications

- ICSA Labs: Firewall, IPSec, Antivirus, SSL VPN, FIPS 140-2 Level 2 (hardware); CC EAL4+

Note: All performance values are “up to” and vary depending on system configuration. Antivirus performance is measured using 44 Kbyte HTTP files. IPS performance is measured using 1 Mbyte HTTP files.
